Developed from the guides in *Canoeist*, this book is similar in format to the best selling *Canals of Britain*.

Featured are the tidal sections of rivers, estuaries, tideways, havens, sea lochs, firths and kyles, an amazingly varied range of waters.

Covering well known tidal rivers, the picturesque, the industrial and small rivers off the beaten track, this book looks at the navigation aspects of waters which often get overlooked, especially if they have challenging conditions. Yet they teem with wildlife, are steeped in history, have dramatic engineering and stunning architecture and are where inland rivers morph into the open sea. Of necessity they have been used by invaders and traders since the mists of time. Here there are history and folklore, places of interest, waterside pubs, villages, towns and cities and navigation features from rapids and weirs to vast open reaches of water, from Carrick Roads to the Kyle of Sutherland.
